the environmentally sound refrigerant

Customer purchases a Carrier Infinity gas furnace (58MVB/58CVA/58MVC) and pays all installation costs and taxes for entire furnace and air conditioning system. Dealer supplies at no cost to customer a Carrier entry level Puron air conditioning unit (24ABB3). This offer requires the homeowner to purchase a new Infinity Control. Customer selected add-on equipment or required site preparation (air cleaner, humidifier, extra air ducting, installation accessories, & permits) at additional cost. This offer cannot be used with any other Carrier promotions or special promotions. Additional featured air conditioners are available at additional cost. Air conditioner must be installed during furnace installation. Offer applies to residential replacement only. Contact your local Carrier dealer for complete details. This offer expires December 15, 2009.
